Leslie:

Looks like they did finish the next FC of the documents from you and Natalie Topp. I will do another interim and then the last response will be the releasable electronic emails. Thanks.

I left a voice mail message last week for David Hoff and I am still waiting to hear from David on the answers to who retrieves the emails from Lotus Notes and who does the retrieving from Outlook (is it done by each person separately or does someone do it for them). I would assume that David Hoff will get a database set up for this and he will contact you asking for names of people so they can each put their stuff in there.

Noreen,

The new collection FC 11457 has been created for the documents submitted. A hitlist is attached, and a copy of the collection on the L-drive.

Best,
John W Stillwell
